

# MUNSELL COLOR WHEEL

from ANGELA JARECKI

Munsell Color Wheel

Standard Color Wheel

**"The standard color wheel primaries are: red, yellow and blue. In the Munsell world of color they are: red, yellow, green, blue and purple or violet.**

**These 5 colors mix to make the secondary colors: yellow-red, yellow-green, blue-green, blue-violet (or purple-blue) and red-violet (or purple-red). This makes 10 colors on Munsell's color wheel.**

**On the standard color wheel there are, 3 primaries, 3 secondaries (orange, purple and green) making the standard color wheel consist of 6 main colors."**
